SPEAKER SOLICITATION: The Steering Committee seeks Abstracts from people who wish to present. Only abstracts will be published. Hence no formal technical paper is required. In addition to planned speakers, the Committee desires to attract participants with a diversity of expertise and experiences.

Abstract Deadline extended to 4 May 2008
Presentation Deadline 25 July 2008

RESERVOIR CHARACTERIZATION – CHALLENGES from the ASIA-PACIFIC REGION

CONFERENCE FORMAT

SPWLA Regional Petrophysical Conferences are Petrophysical discussions focused on specific areas of interest. This Conference addresses reservoir challenges, practices, evaluations and solutions.

SPWLA Technical Conferences are structured but informal. Abstracts and presentations will be made available on CD in high security pdf format, however no formal technical papers are required. We encourage submission of work in progress or problems not yet solved. Presentations will typically be 20-30 minutes (including questions). In keeping with conference objectives and practice in other SPWLA-sponsored events, commercialism in speaker presentations will not be permitted.

SPWLA 2008 Joint SE Asia / Japan / Australia Petrophysical Conference

Challenges from the Asia-Pacific Region.

Aug 24* – Aug 27 2008

CALL FOR ABSTRACTS

The SPWLA 2008 Joint SE Asia / Japan / Australia Petrophysical Conference will be for technology presentation and open discussion on the Characterization of Reservoirs encountered in the region, extending from Japan to Australia. We will investigate challenges and local field practices from this region as they relate to petrophysics either at exploration, appraisal and or development stage. The final agenda will vary with submissions from participants but will be bracketed according to the sub-themes received.

Do you want to make a Presentation? YES (___) or NO (___)

Do you want to make a Poster? YES (___) or NO (___)

If **YES**, include **TITLE**

(here): _____

Briefly describe the subject & material of your presentation/poster (please specify):

WHO WILL BE THERE: Persons working in petrophysics, geology and reservoir engineering, wireline logging / LWD service company specialists.

DISCUSSION GROUPS: Small Panel discussion will address special topics proposed by participants and the Steering Committee, then report back in plenary session.

COMMERCIALISM: In keeping with conference objectives, the SPWLA mission and practice in other Topical Conferences, commercialism in speaker presentations is not permitted. Company logos shall be limited to the title slide and only used to indicate affiliations of the presenter and others involved in the work. Space will be provided for exhibits or posters.

COST & LOCATION: US\$370. This *includes* registration, commemorative event shirt, Sunday evening icebreaker & lunches Monday through Wednesday. A website for booking the hotel online will be available shortly. For more details, contact the SPWLA business office: phone 713-947-8727 (USA); Vicki@spwla.org
