PETROPHYSICS

April Vol. 61, No. 2

Contents

130 From the Editor

131 Petrophysics Peer Reviewers for 2019

ARTICLES - BEST OF THE SOCIETY OF CORE ANALYSTS 2019 INTERNATIONAL SYMPOSIUM

133 Determination of Critical Gas Saturation by Micro-CT
   Steffen Berg, Ying Gao, Apostolos Georgiadis, Niels Brussee, Ab Coorn, Hilbert van der Linde, Jesse Dietederich, Faruk Omer Alpak, Daniel Eriksen, Miranda Mooijer-van den Heuvel, Jeff Southwick, Matthias Appel, and Ove Bjørn Wilson

151 A New Apparatus for Coupled Low-Field NMR and Ultrasonic Measurements in Rocks at Reservoir Conditions
   Paul R. J. Connolly, Joël Sarout, Jérémie Dautriat, Eric F. May, and Michael L. Johns

162 Low-Permeability Measurement on Crushed Rock: Insights
   Sandra Proifice and Roland Lenormand

179 A New CEC-Measurement Proxy Using High-Frequency Dielectric Analysis of Crushed Rock
   M. Rebecca Stokes, Z. Elton Yang, Prince Ezebuirkw, and Timothy Fischer

189 Workflow for Upscaling Wettability From the Nanoscale to Core Scale

   Josephina Schembre-McCabe, Jairam Kamath, Andrew Fager, and Bernd Crouse

ARTICLES - REGULAR SUBMISSIONS

218 Effect of Injection Pressure on the Imbibition Relative Permeability and Capillary Pressure Curves of Shale Gas Matrix
   Aymen Al-Ameri and Muhammed Abed Mazeel

230 Spontaneous Gas-Water Imbibition in Mixed-Wet Pores
   Lin Wang, Yong Ming He, Yi Hang Xiao, Hong Hui Wang, and Fei Ying Ma

239 Chemically Induced Formation Damage in Shale
   Wyatt Wick, Shantanu Taneja, Ishank Gupta, Carl H. Sondergeld, and Chandra S. Rai

Full-Color versions of all technical articles are available in the digital edition of Petrophysics, which is free to SPWLA members and can be found at https://www.spwla.org/SPWLA/Publications/Journals/Recent_Petrophysics_Journals.aspx.

The Society of Petrophysicists and Well Log Analysts is dedicated to the advancement of the science of formation evaluation through well logging and other formation evaluation techniques. SPWLA is dedicated to the application of these techniques, to the exploration and exploitation of gas, oil and other minerals. PETROPHYSICS publishes original contributions on theoretical and applied aspects of formation evaluation; particularly well logging and petrophysics.
