SPWLA Foundation. This fund supports scholarships in higher education and research in formation evaluation. Please send donations to: SPWLA, 8866 Gulf Freeway, Suite 320, Houston, TX 77017, USA

ISSN 2641-4112

PETROPHYSICS is published bimonthly by the Society of Petrophysicists and Well Log Analysts (SPWLA). Subscription is included in annual dues for members. Library Subscription cost is \$250 (6-issues, Feb, April, June, Aug, Oct, Dec) Send Subscription and member address changes to the SPWLA business office. Back issues if available are \$35 each to members and \$45 each to library subscribers.

ADVERTISING RATES: (based on one-time, full color) Full Page: \$1500, Half Page: \$1200, Quarter Page: \$1000. Additional fee for printing on covers. Media kits are available by contacting the SPWLA business office or by visiting the SPWLA website www.spwla.org. Responsibility: The statements and opinions expressed in PETROPHYSICS are those of the authors and should not be construed as an official action or opinion of the Society of Petrophysicists and Well Log Analysts, Inc. © Copyright 2017 by the Society of Petrophysicists and Well Log Analysts, Inc.

About the Cover

The industry is beginning to use azimuthal GR tools for geosteering horizontal wells in unconventional reservoirs. Theoretical analysis based on Monte Carlo nuclear modeling and case studies of field data from three horizontal wells are presented in the article by Wang et al.

PRINTED IN USA ON ACID FREE PAPER

PETROPHYSICS

February Vol. 60, No. 1

Contents

3 From the Editor

TUTORIAL

4 **Organic-Mudstone Petrophysics: Workflow to Estimate Storage Capacity**
Kent Newsham, Joe Comisky and Roland Chemali

ARTICLES - BEST OF THE 2018 SYMPOSIUM, PART 2

17 **Defining Net-Pay Cutoffs in Carbonates Using Advanced Petrophysical Methods**
Mark Skalinski, Robert Mallan, Mason Edwards, Boqin Sun, Emmanuel Toumelin, Grant Kelly, Hazaretali Wushur, and Michael Sullivan

37 **Frequency and Temperature Dependence of 2D NMR T_1 - T_2 Maps of Shale**
Ravinath Kausik, Denise Freed, Kamilla Fellah, Ling Feng, Yanchun Ling, and Gary Simpson

50 **Maintaining and Reconstructing In-Situ Saturations: A Comparison Between Whole Core, Sidewall Core, and Pressurized Sidewall Core in the Permian Basin**
Aidan Blount, Adam McMullen, Melanie Durand, and Brian Driskill

61 **Novel Composite Cement for Improved Well Integrity Evaluation**
Hani Elshahawi, Shan Huang, Jacob Pollock, and Vinod Veedu

ARTICLES - DEPTH CONTROL

71 **Depth: A Love and Hate Story**
Philippe Theys

73 **Connecting the Dots—The Relevance of Proper Depth Control in the Discovery of the Groningen Field**
Emile Fokkema and Clemens Visser

76 **Correction of Driller's Depth: Field Example Using Driller's Way-Point Depth Correction Methodology**
Harald Bolt

ARTICLES - REGULAR SUBMISSIONS

93 **Modeling of Azimuthal Gamma-Ray Tools for Use in Geosteering in Unconventional Reservoirs**
Haijing Wang, Ed Stockhausen, Dennis F. Wyatt Jr., and Dean Gulick

113 **Feasibility and Design of Hydraulic Fracturing Stress Tests Using a Quantitative Risk Assessment and Control Approach**
Thomas Bérard, Nikita Chugunov, Jean Desroches, and Romain Prioul

136 **Neutron Generators as Alternatives to Am-Be Sources in Well Logging: An Assessment of Fundamentals**
Ahmed Badruzzaman, Andrea Schmidt, and Arlyn Antolak

171 Instructions to Authors

Full-Color versions of all technical articles are available in the digital edition of Petrophysics, which is free to SPWLA members and can be found at Recent_Petrophysics_Journals.aspx.

The Society of Petrophysicists and Well Log Analysts is dedicated to the advancement of the science of formation evaluation through well logging and other formation evaluation techniques. SPWLA is dedicated to the application of these techniques, to the exploration and exploitation of gas, oil and other minerals. PETROPHYSICS publishes original contributions on theoretical and applied aspects of formation evaluation; particularly well logging and petrophysics.
